

MANAGING CISCO MERAKI ORGANIZATIONS JUST GOT WAY MORE PROFITABLE

POWERED BY 

The most complete portfolio of automation solutions for Cisco Meraki infrastructures.

Automate the deployment, troubleshooting, and overall administration of Cisco Meraki organizations.

A MUST-HAVE COMPLEMENT TO CISCO MERAKI AS YOUR CLIENTS' ORGANIZATIONS GROW AND SCALE

Batch Provisioning

Audit & Standardization

Organization Cloning

Mass Configuration

Granular Access Control

Advanced Monitoring

TURNKEY AUTOMATION TO ALLEVIATE YOUR WORKLOAD

With Boundless, you can streamline the management of Cisco Meraki organizations, get more agility and flexibility, and increase network reliability and compliance.

Deploy and Provision Networks in Batches

Build custom workflows to automate the deployment and provisioning of hundreds of networks in just a few clicks and with no risk of human error.

Clone and Migrate your Organizations

Roll out large organizations in a matter of minutes, by cloning a golden configuration, or using an existing organization as a model.

Upgrade Role-Based Access Control

Limit the level of access you want to grant to those accessing or managing Meraki networks and organizations.

Run Config Changes in Bulk

Deploy custom configuration changes to hundreds of networks in one go, without the constraint of binding them to a template.

Strengthen Network and Security Compliance

Automate the auditing of your networks against predefined standards and rules and trigger alerts when non-compliant changes take place.

Improve Device Discovery and Inventory

Aggregate and centralize all client data and speed up research using more advanced filtering tools.

WHY SPEND HOURS MAKING CHANGES...

WHEN YOU CAN JUST SPEND MINUTES?

And yet, get better results.

Thanks to advanced API-based automation, the Boundless solutions automatically repeat operations at scale across a large number of networks and organizations. As a result:

- ✓ You save countless hours in repetitive tasks
- ✓ You reduce the chance for human error
- ✓ You optimize operational costs

WITH BOUNDLESS YOU CAN ALSO GET UP TO...

90%

time saved in provisioning and configuring networks

40%

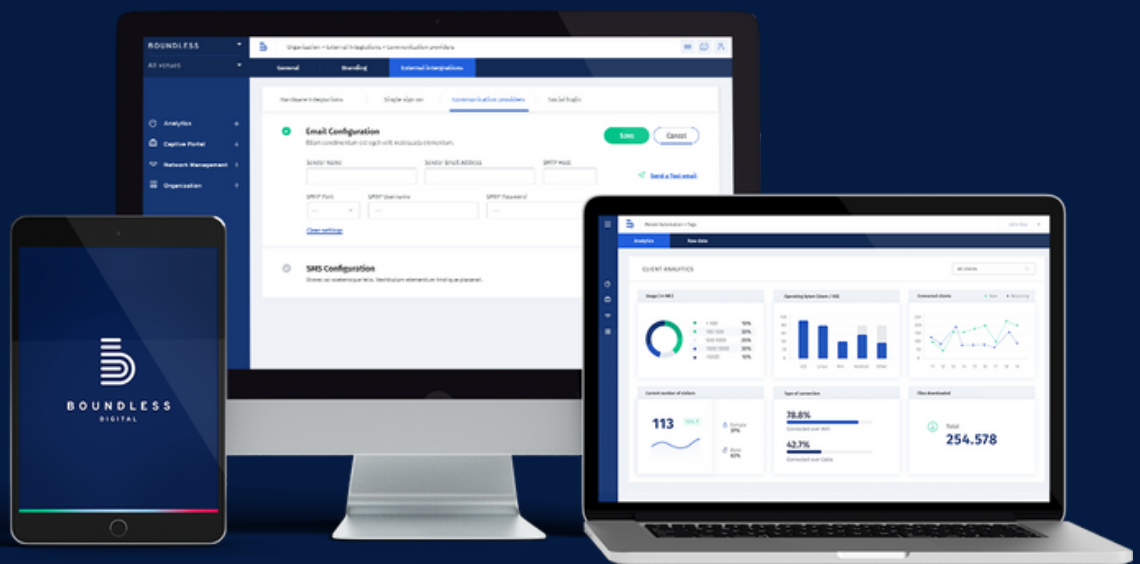

less manual, repetitive, and productivity-killing tasks

25%

more compliance with golden standard rules

THE MISSING PIECE TO YOUR CISCO MERAKI STACK

The Boundless solutions improve the management of Cisco Meraki networks at scale, so that IT Service Providers can increase their efficiency, accelerate their operations, and become more competitive.
